

Life Expectancy The graphs show the life expectancies of females and males from 1980 through 2007 for 5 countries. In Exercises 15–20, use the graphs. (See Examples 5 and 6.)

15. Discuss any trends in the graph of the life expectancies of females.
16. Discuss any trends in the graph of the life expectancies of males.
17. Order the countries by female life expectancy from least to greatest for 1980 and 2007. Compare the orders.
18. Order the countries by male life expectancy from least to greatest for 1980 and 2007. Compare the orders.
19. Compare the life expectancies of females and males for each country. What do you notice?
20. Which country had the greatest increase in life expectancy for females? Which country had the greatest increase in life expectancy for males?
